

BIRD FRIENDLY GLAZING CHALLENGES AND SOLUTIONS

Walker Glass is proud to offer architects and specifiers this Continuing Education Course approved by the AIA and the USGBC. The number of cities across North America adopting bird deterrence legislations is growing. This course will cover critical aspects that will be helpful to architects designing buildings that will reduce significantly the number of bird collisions and have a positive impact on the environment and biodiversity.

Provider number: K216
Program number: WA1311-20
Duration: 1 hour, LU-HSW & GBCI CE
USGBC: 0910000178

BIRD FRIENDLY GLAZING AND CHALLENGES

PROGRAM OUTLINE

Understanding Birds

- Importance of Birds
- Bird Migration

Bird Collisions

- Assessing the Risk of Bird Collisions
- Various Glass Structures

Research & Key Findings

- Research on Bird Window Collisions
- 2x4 Rule

Legislations & Standards

- Testing Methods
- LEED Pilot Credit 55: Bird Collision Deterrence
- Current & Pending Legislations in USA and Canada

Solutions & Examples

- Review of the Various Glass Solutions
- Review of Bird Safe Glass Projects

Future Evolution
