TEMPERED MIRROR

Tempered mirror is ideal for public areas, gyms, dance studios, and more.

TEMPERED MIRROR

Tempered mirror is ideal for spaces that require elevated safety measures, such as gyms, dance studios, elevator cab areas and certain public areas.

Thickness: 5mm (3/16"), 6mm (1/4"), 10mm (3/8")

Availability: Please request a quote.

Disclaimer: Tempered glass is used in manufacturing mirrors when safety is the paramount concern. Due to anomalies inherent to the tempering process, tempered mirror cannot be held to the same quality standards as annealed mirror. Surface blemishes that should be anticipated include scratches and rubs. Because the glass must be tempered prior to silvering, these blemishes can be encountered on both the face and silvered surfaces.

For more details on the quality specifications of tempered mirror, please contact Customer Service.

These tempered mirror options are manufactured by Gardner Glass, and distributed by Walker Glass.
