

# Challenges and Solutions in Bird-Friendly Glazing

**COURSE**

Walker Glass is proud to offer architects and specifiers **this Continuing Education Course approved by the AIA and GBCI**. The number of cities across North America adopting bird deterrence legislations is growing. This course will covers critical aspects that will be helpful to architects designing buildings that will reduce significantly the risk of bird collisions and have a positive impact on the environment and biodiversity.

# Challenges and Solutions in Bird-Friendly Glazing

## PROGRAM OUTLINE

### Understanding Birds

- Importance of birds
- Bird migration

### Bird Collisions

- Assessing the risk of bird collisions
- Various glass structures

### Research & Key Findings

- Research on bird window collisions
- 2x4 rule

### Legislations & Standards

- Testing methods
- LEED® Innovation Credit:  
Bird Collision Deterrence
- Legislations USA & Canada

### Solutions & Examples

- Review of the various glass solutions
- Review of the bird-safe glass projects

### Future Evolution

### Resources

Provider number: **K216**

Program number: **WA1311-24**

Duration: 1 h, LU-HSW & GBCI CE

GBCI: 0920031379

Approved  
Continuing  
Education
