

Leveraging Acid-Etched Glass and Mirror for Effective Interior Design Solutions

COURSE

Walker Glass is proud to offer to interior designers, architects and specifiers this Continuing Education Course approved by the AIA and ASID. Acid-etched glass and mirror can be used in a variety of interior applications. The session will focus on different solutions meeting interior glazing objectives and will cover properties, specifications and constructability, to facilitate and improve the decision-making process. The course also covers how acid-etched glass and mirror can meet sustainability objectives and support the LEED® certification process.
