The **Walker Textures® acid-etched mirror** is a wonderful option for interior applications. If you are an architect or interior designer looking for something that will help you achieve a unique look, acid-etched mirror can fulfill your needs. Our acid-etch process creates a silky-smooth finish on the surface of the mirror with subtle reflectivity. When combined with the light, it adds an impression of depth to the glass. You can explore a world of possibilities with Walker Textures® acid-etched mirror options.

Sustainable material

Did you know that Walker's acid-etched mirror can support your environmental goals? For example, if you are working on a project based on the LEED points system, our etched mirror can contribute to multiple credits. It is important to point out that the Satin and Opaque finishes are the only acid-etched mirror on the market that come with Environmental Product Declaration and Health Product Declaration® documentation. To request your copies of the EPD or HPD®, please visit our [website](#).

**10 Year
WARRANTY**

Warranty

Beauty and aesthetic do not only rely on looks but also on longevity. As a design professional you want to make sure that your installation will pass the test of time. Walker has been manufacturing the finest mirrors for over 80 years. We know a thing or two about mirror. To find out more about our 10 year warranty on acid-etched mirror, please visit our [website](#).

Samples

Whether you're brainstorming your next project or finalising a building's specs, samples can help you with the decision-making process. Do not hesitate to request samples from your Walker representative, or simply click on the following link to place your [order](#).

Specifications

Once you've chosen the materials for your building project, it's time to write your specifications. Done correctly, this step can prevent unpleasant surprises. Therefore, this critical step in your design journey needs the right information. Request our 3-part specifications template through the following [link](#).

More... with our blog, project gallery and Newsletter
